

FM translator service is very important to my community. It enables us to receive K-Love radio signals in my area. This is the primary radio station for me and my children. It offers wholesome music and commentary. We may lose this wonderful radio programming if you switch to an LPFM broadcaster. Please choose to continue the FM translator. Without it, and K-Love radio my kids will not have the positive music source they have come to love. It is a beneficial, worthy station that is encouraging to all the people it reaches.
